

# NENEGATE

NENEGATE SCHOOL

Thursday 22<sup>nd</sup> October

Dear Parents and Carers

We have been notified of a confirmed case of COVID-19 within the school. I am informing you of this as we wish to be transparent and to be able to answer any questions that you may have.

All guidance has been followed and the Local Authority and DfE have been informed.

Your child is not affected, and it is safe for them to be in school. If your child was previously on the shielded list, you may wish to seek medical advice.

Please find below some general information regarding Covid

## There are things you can do to reduce the risk of getting COVID-19:

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

## Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- high temperature or
- a loss of, or change in, normal sense of taste or smell (anosmia).

If your child is displaying any symptoms you should isolate and arrange a test.
